### MEDIA RELEASE

#### DEPARTMENT CONDUCTS AUDIT ON BOREHOLES PROJECT

The Department of Co-operative Governance and Traditional affairs has completed an evaluation of all the 68 boreholes that were drilled and equipped by it in the three Districts in the province, as part of its boreholes project. The evaluation was to assess the quality of the work performed, review the project implementation especially the extent to which the activities as specified in the original agreement have been implemented value for money and status of boreholes.

The evaluation report has indicated that all boreholes have been completed. Of the 68 boreholes, 41 are functional, 14 are not functional due to poor workmanship and 13 are not functional because water has run dry in those areas. The department has written to the service providers who have not delivered quality services requesting them to show cause why the department should not take action against them. Necessary and appropriate action will then be taken.
